CENTRAL INTELLIGENCE GROUP  
INTELLIGENCE REPORT

122873

COUNTRY Germany (Russian Zone)  
SUBJECT Dismantling of Rail Lines in Saxony

DATE: 25X1A6a  
INFO. [REDACTED]  
DIST. 30 October 1947

ORIGIN [REDACTED] 25X1A6a  
25X1X6  
SUPPLEMENT

EE

1. Beginning in late August 1947, railroad tracks between Stollberg (K54) and Aue (K53) were being dismantled. An order called for the removal of 200 meters of track daily along the stretch Stollberg to Aue (K53).
2. The population has complained that completion of this dismantling will make it extremely difficult for workers to travel to their jobs. Workers in the Zwickau shoe factories and Beiersfeld plants chiefly live in surrounding villages and are dependent on rail transportation. The lines described above have been operating on single tracks for some time.
3. It is also planned to dismantle lines between Zwickau and Aue and between Walchheim (K78) and Narsdorf (K47).
